LEGEND

The background image shows a wide, flat, light-colored landscape, likely a salt flat or a dry lake bed, with distant mountains under a clear sky. The word "LEGEND" is written in large, bold, red letters at the top center of the image.

Long ,long ago when it wasn't the Earth, it was only ice without plants.

In the ice choom lived one man
, the White God

A large, jagged iceberg with sharp peaks and deep crevasses, floating in a calm blue sea. The sky is a clear, vibrant blue. In the distance, other smaller icebergs are visible on the horizon.

a God of ice and snow. He
lived with his Mother, goddess.

They created the first plants, herbs and flowers.

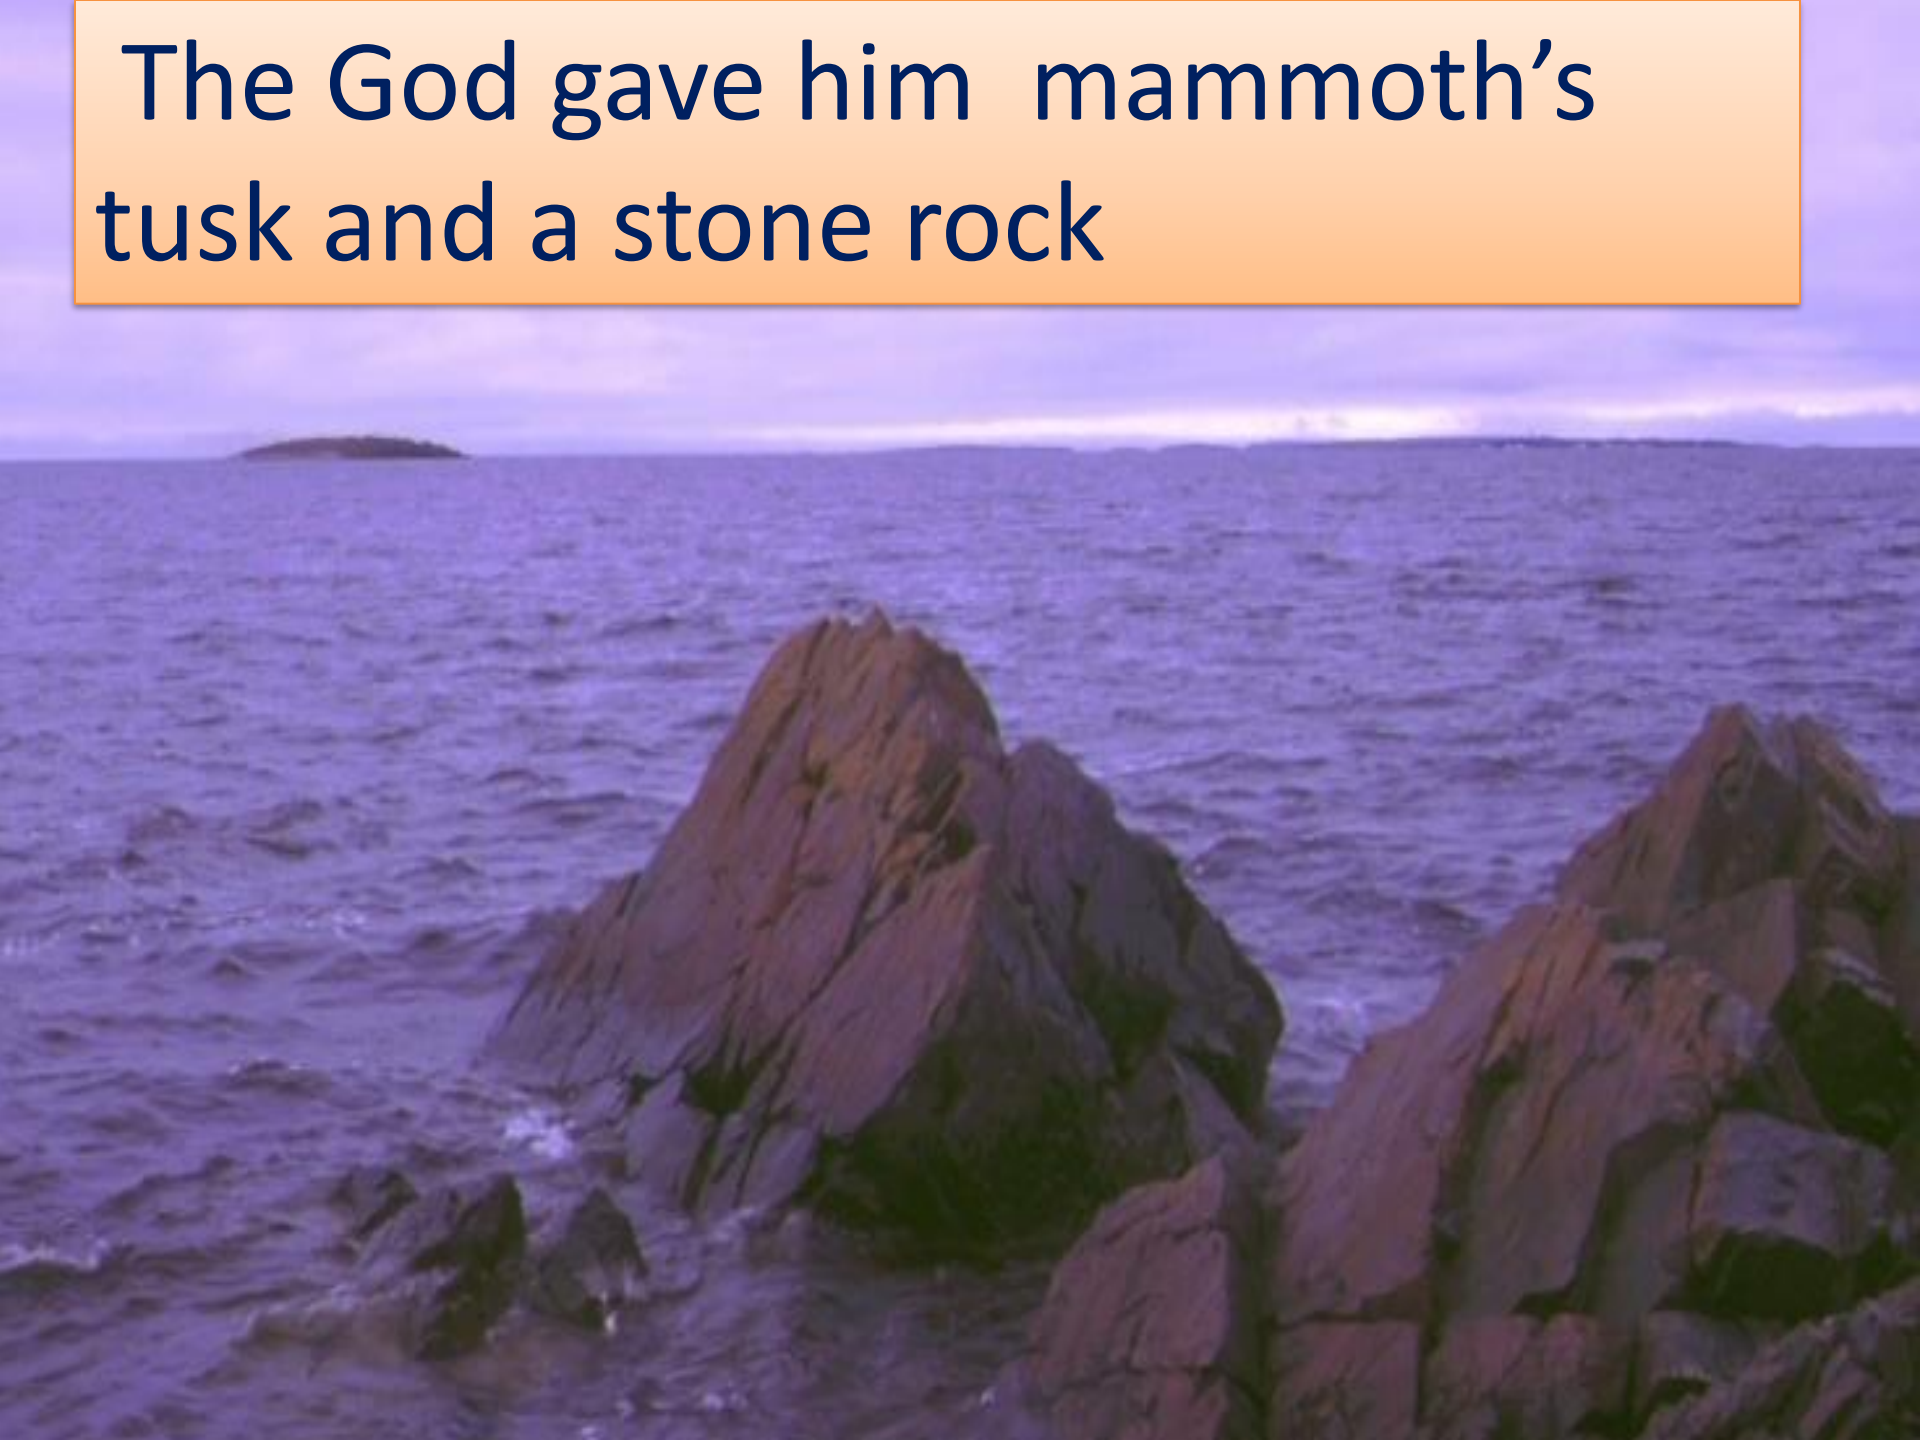

They created a reindeer to protect all plants from worms.

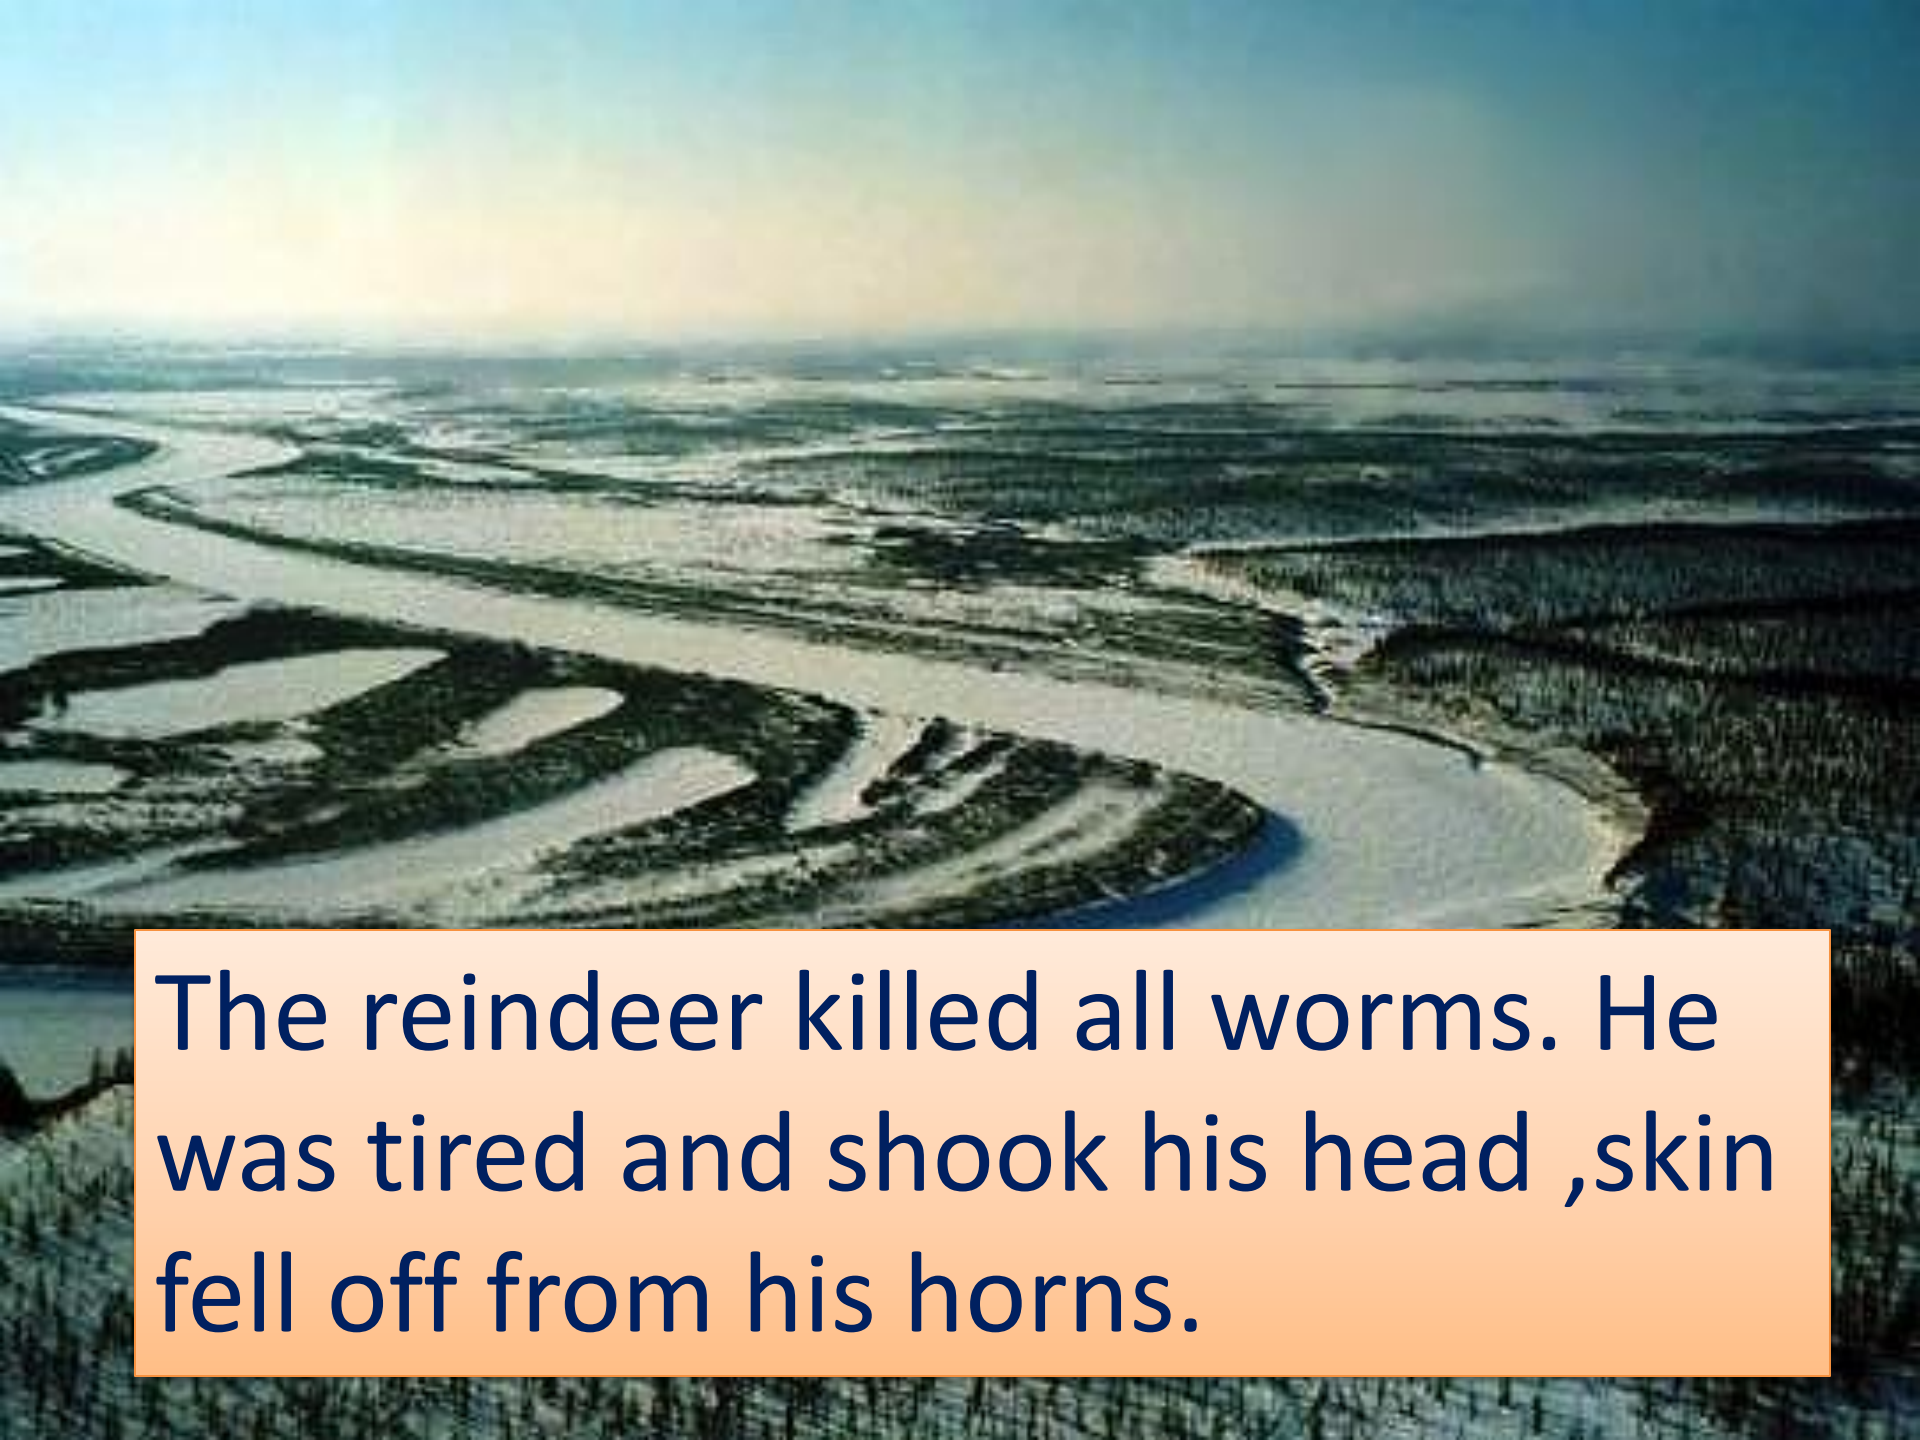

The reindeer hadn't horns . He asked his Father to give him strong horns.

The God gave him mammoth's tusk and a stone rock

The reindeer killed all worms. He was tired and shook his head, skin fell off from his horns.

So appeared the southern
Middendorf mountain range

and the northern Byrranga
mountain range

A nest of birds in the northern
Byrranga mountain range

The reindeer grew and grew

The White God saw it and said ,”Let his northern horns to be the northern radiance

and the northern red clouds

and his southern horns to be
storm and snow clouds”

From that time the back of a huge reindeer became the Earth surrounded with mountains

and people began to live there.

So this world was born.
